

## TRAINING PROGRAM FOR YOUNG PROFESSIONALS

Aquaculture Training Opportunity (15 positions available, Starting from August 15<sup>th</sup>, 2023)

### Application Details:

Deadline: August 1 2023

Shortlisting and interview: 4<sup>th</sup> August 2023 – 6<sup>th</sup> August 2023. Reporting time for selected Trainees: 15<sup>th</sup> August 2023.

**Submit applications to:** Irene Tay (Flosell Farms) at [tayphapha@gmail.com](mailto:tayphapha@gmail.com).

**Funded by:** World Initiative for Soy in Human Health (WISHH) and Flosell Farms, LLC.

**Duration:** 6 weeks

**Description:** Fifteen (15) commercial-aquaculture trainee positions will be available beginning 15<sup>th</sup> August 2023. Location of internship will be at Flosell farms, LLC (Sogakope, Ghana). The training comes with a stipend and will also give students an opportunity to learn skills associated with the operation of a commercial tilapia farm. Some of the skills include fish biology, brood fish management, larval and juvenile fish rearing, fish disease management, water quality management and culture system operation. Additionally, selected candidates will take part in lectures and seminars conducted physically and virtually on topics associated with successful fish farming practices.

These seminars will be conducted by WISHH aquaculture consultants who have teaching experiences from various universities around the world. Trainees will also be required to write a summary paper of skills and lessons obtained during this learning experience to receive final payment. Certificate of training will be issued.

**Benefits:** Trainees will receive a stipend of a minimum amount of 200 (USD) plus lodging and 1 meal per day.

**Application Requirements:** Applicants must be enrolled in any credible university (University of Ghana, University of Cape Coast, Kwame Nkrumah University of Science and Technology, etc.) and a Fisheries/Aquaculture major student or any related aquaculture program.

Applicants must have excellent English Language skills and should submit a letter of application detailing experience in aquaculture, reasons for applying for this internship, and career goals. Additionally, a letter of recommendation must be submitted. Candidate applications will be assessed by WISHH and Flosell Farms and interviews completed before final selection. Selected applicants will be required to provide their own transportation to the training site. Application is now open.

**Women are especially encouraged to apply.**
